SUMMARY

A front-end developer with capability of full-stack web/mobile development and great passion for design who loves putting creativity into websites. A hard worker who loves working on projects both in a team and personally. A consistent learner of existing and new technologies.

SKILLS

HTML | CSS | Sass | JavaScript | TypeScript | React.js | Redux | Next.js | Jest | Shopify | StoryBook | Node.js | Express | MySQL | PostgreSQL | MongoDB | AWS | Git | GitHub | JIRA | Illustrator

EXPERIENCE

Front End Developer Oct 2021 – Mar 2023

Trainerize, Vancouver, Canada

- Maintained and improved a fitness related web/mobile service in a team using React, Redux, StoryBook, and GitHub for task and file management.
- Developed new features from scratch and renewed existing features on my own which makes the entire system more functional and stable.
- Worked on implementation for both web and mobile app.

Front End Developer May 2021 - Aug 2021

DPCode Inc, Vancouver, Canada

- Created an educational platform in a team using Next.js, AWS, StoryBook, and GitHub for task and file management.
- Implemented an authentication system with NextAuth for front end and Amazon Cognito for back end.
- Worked as a mentor of a developer and distributed given tasks, showed how to proceed complex tasks, and troubleshoot bugs.

Front End Developer May 2021 - Aug 2021

Relayfy Digital Services, Vancouver, Canada

- Created an online order system with complex variety of customization using React, Redux, Typescript, and Bitbucket from JIRA for task and file management.
- Took over the codes from a previous developer and fixed left-over bugs individually.
- Implemented a payment system with Square and enabled users to pay by Google Pay or Apple pay.
